

## KFSG Tokenomics - LITE Paper

KFSG has a Total Supply of 1,700,000 tokens. There will never be more than that. We have already burned over 87% of this supply.

CoinMarketCap and CoinGecko currently do not have the correct MarketCap since they do not recognize our circulating supply (to find the circulating supply you must subtract the [burn wallet](#) from the total supply)

KFSG is a decentralized deflationary asset created with 10% taxes on every KFSG transaction, (buy/sell/transfer).

Every time there is a buy/sell/transfer of KFSG the aforementioned 10% tax is sent through the contract to every wallet that holds KFSG.

The largest wallet is the [burn wallet](#) and it currently holds more than 87% of the supply so it receives over 8.7% of the 10% tax. The remaining 1.3% goes to all other wallets holding KFSG.

The burn wallet was purposefully set up this way - *so with every burn* - it receives a larger portion of the taxes and the rest of the wallets receive less.

It's important to note that *nobody* holds the private key or seed phrase to the [burn wallet](#), the KFSG in this wallet can't ever make its way back into the circulating supply.

## OTC (Over-The-Counter)

OTC orders are performed through our website clicking "[OTC](#)" and filling out the form.

We have OTC enabled for buying KFSG for a 5% fee (compared to 10% tax through the market).

The [KFSG contract](#) was deployed by creating one wallet which is immune to the 10% taxes. This is the [OTC / Liquidity Wallet](#).

With this wallet, we are able to purchase KFSG through the market with 0% taxes and pass those savings onto you, through OTC with a 5% fee (you save 5% this way).

OTC minimum purchase is 3 KFSG. Anything less, must be purchased through the market. When you fill out the OTC request form, you must enter an OTC code (you pick a random number that no one else knows) and you will be contacted, via telegram, to complete the transaction

If the person reaching out to you does not supply the exact code you entered then it is not safe to continue.

### **Referral Program**

Referral Program - All referred buyers must buy through OTC.

Receiving the referral bonus - The person you refer must enter your wallet address in the optional 'referral wallet address' box.

You will receive 2% of all KFSG purchased from all your referrals.

You must hold a minimum of 10 KFSG to receive a referral bonus.

### **Revenue**

Revenue is created from the following services.

- OTC (Over-The-Counter)
- Hotel Payments
- Airline Flight Payments
- Utility Bill Payments
- Merchandise
